

AMERICAN CERTIFIED GLOBAL SUPPLY CHAIN RISK & RESILIENCE PROFESSIONAL (AC-GSRP)®

Risk Management • Resilience • Business Continuity • Global Supply Chains

Offered by: American Association of Procurement,
Supply Chain & Tourism Management (AAPSCM®)

CERTIFICATE OVERVIEW

The **AC-GSRP®** certification is designed for professionals responsible for **protecting global supply chains against disruption**.

The program equips leaders to **anticipate risks, build resilience strategies, implement business continuity frameworks, and leverage analytics, AI, and digital twins** to ensure operational continuity amid geopolitical, cyber, environmental, and financial threats.

WHO SHOULD ENROLL

Ideal for:

- Supply Chain Risk Managers & Analysts
- Business Continuity & Resilience Professionals
- Global Logistics & Operations Managers
- Cybersecurity & Third-Party / Vendor Risk Officers
- Consultants in Global Risk & Resilience

Recommended Background:

- 2+ years in supply chain, risk, or continuity roles
- Familiarity with ISO 31000, ISO 22301, NIST, FEMA
- Bachelor's degree or equivalent professional experience preferred

Anticipate Disruptions. Strengthen Resilience. Protect Global Operations.

A globally recognized credential validating advanced expertise in **supply chain risk identification, resilience planning, business continuity, and disruption recovery**.

KEY LEARNING OUTCOMES

By earning **AC-GSRP®**, you will be able to:

- Conduct end-to-end global supply chain risk assessments
- Mitigate geopolitical, financial, climate, cyber & operational risks
- Design resilience dashboards and digital twin simulations
- Lead crisis response and disruption recovery initiatives
- Align supply chain resilience with enterprise risk management (ERM)
- Develop cost-effective business continuity strategies
- Govern risk programs using ISO & regulatory frameworks
- Apply AI and predictive analytics for early-warning risk sensing
- Communicate risk exposure and resilience strategies to executive
